INSTRUCTIONS “INBOEDELMEETER”

Use

The “inboedelmeeter” comprises a number of questions and results in a number of points. The total number of points is then multiplied by a fixed amount. The inboedelmeeter also has surcharges. The sum of all the amounts is the estimated value of your house contents. Before completing the form please read the following information.

The Inboedelmeeter normally can be used if the net monthly income does not exceed € 5,000 and the floor dimension of the house is at most 300 m². Above these numbers we advise you to contact our Office for an individual estimation of your house contents e.g. by use of an inventory list or by making a valuation.

Net monthly income of main wage-earner

This means: the total net monthly income of the main wage-earner belonging to the household of the policy holder. Income includes salary, income from one's own company, pension, alimony received, old-age pension or other social benefits. Interest and income from investments is not included.

Indoor available floor space

The total available space in square metres (m²) of every room in the house or belonging to the house, including cellar/basement, garage, hobby room, home office, utility room etc.

Special possessions

This refers to valuable possessions such as collections, antiques, art and (special) musical instruments.

Tenant's fixtures and fittings (does not apply to owner-occupied housing)

This applies to all the changes and improvements to the house that you, the tenant, have paid for. This includes improvements to the central heating, kitchen, sanitary fittings, panelling, parquet and tiled floors, sheds and fences. The tenant's fixtures and fittings are included under your household contents insurance. When filling in the Inboedelmeeter you will notice that you even receive points for fixtures and fittings if you own the house. This is reflecting the extra costs for maintenance that house-owners have to make.

Audio, visual and computer equipment

Includes:

- all visual, audio, receiving and transmitting equipment;
- all types of computer equipment (including games computers) and software;
- all peripheral equipment belonging to the above mentioned equipment;
- all audio, visual and data carriers (e.g. CD's, DVD's, USB-sticks)

If you live in Amsterdam, Rotterdam, Utrecht or Den Haag, payment in the event of theft of the above is limited to € 5,000 per incident. This payment limitation does only apply to separate insurance policies. Additional insurance against theft of the above can be taken out in respect of an extra premium.

Personal jewellery

This is jewellery, including watches, designed to be worn on the body, that is made in part or entirely from jewels, precious stones, minerals, pearls, (red) coral or such like materials. Payment in the event of theft of personal jewellery is limited to € 5,000 per incident. Additional insurance can be taken out in respect of an extra premium.

Valuables insurance

Personal jewellery or other recently acquired or recently valued valuables insured under a separate valuables insurance do not need to be registered as additions.
